

DynamicChairDisplay

Motorised monitor with manual rotation

FEATURES

- Adapts to multiple armrests
- Motorised adjustable angle
- Maintenance free
- HDCP compliant
- Safety system
- Serial control & Remote diagnose

GENERAL

DynamicChairDisplays have been designed for integration into chairs' armrests.

DynamicChairDisplay is a retractable motorised monitor to be integrated in chair's armrests. The monitor is only visible when in use and it is safely stored in the armrest when not needed.

This elegant aluminium screen has an automatic vertical extraction movement with manual rotation towards the user, followed by a motorised tilt adjustment.

The monitor housing is made of milled aluminium with anodised finish. Its mechanism is robust and silent and the whole solution is integrated in a compact block, being very easy to install. DynamicChairDisplay is available in 15,6".
