

Dynamic1H

HDCP compliant aluminium foldable motorised monitor

AH17D1HGA

Features

- Horizontal motorised monitor
- Rear gear
- Adjustable position from 0 to 70 $^{\circ}$
- Position memory
- Aluminium milled monitor housing
- Cover plate in aluminium
- Low profile enclosure
- Front double sided anti-reflective 2 sides coating 3 mm black
 edged glass

General

Arthur Holm Dynamic1H is a motorised foldable product range that provides a silent and robust lifting system with a patented dent rear gear drive. The screen is always visible; it raises and leans flush in the desk and can be stopped at any view angle position from 0 to 70 ° of inclination. A smart memory system makes it easy setting up and recalling the desired monitor's position.

Both the monitor housing and the cover plate are made of aluminium, and has under gone an anodising treatment to toughen the aluminium surface to prevent scratches. We have selected the best possible aluminium specifications in the world, to be able to provide the maximum technical and visual performance. Dynamic1H provides an elegant and timeless design and it is available from 12.1 to 21.5", with 2 DVI-HDCP compliant inputs and equipped with an Interactive Setup Display allowing the control, setup and diagnose of the monitors.

- Interactive Setup Display (ISD)
- Maintenance free
- HDCP compliant
- Passive cooling
 - Energy saving design, low consumption video controller
- Serial control and remote diagnosis
- Wireless connectivity for setup and control
- Individual monitor addressing
- Auto Mechanical Movement Calibration (AH-AMMC)

Monitors provide RS-422 I/O allowing the remote control of the movements, safety settings, brightness, contrast and backlight. The monitors are equipped with an Auto Mechanical Calibration Movement System. The use of Arthur Holm's ERT will enable the address configuration of all monitors installed by simply pressing a button on each monitor.

The AHlink app gives you wireless access to the monitor's setup menu, serial number and factory settings, making the installation and service of the monitors easy and straightforward, without having physically having to touch the monitor or that furniture. The AHlink app is available for Android and iOS.

INTERACTIVE SETUP DISPLAY (ISD)

CONSULTANTS, ARCHITECTS AND ENGINEERS SPECIFICATIONS

Horizontally foldable motorised 17.3" professional monitor. The monitor housing shall be made of milled aluminium, the cover plate shall be made of anodised aluminium and the screen shall be protected with anti-reflective 2 side coating black edged 3 mm glass. The monitor shall make the movements thanks to a rear gear dent system. The monitor shall have a brightness of 400 cd/m2, a contrast ratio of 600:1 and a backlight life span of 50,000 hours. The monitor shall provide 2 DVI/ HDCP inputs by a licensed HDCP monitor manufacturer.

The monitor shall provide an addressable RS-422 and easy to read Interactive Setup Display (ISD) to access the safety parameters and the control of the brightness, contrast and backlight. The monitor shall be able to run an autoadjustment program to reset the factory setups. The monitor shall provide a USB port for firmware upgrades. The monitor shall be controlled by a wireless Android and iOS app providing information about the monitor's serial number and providing access to the control and setup menu.
