

MicConnect

Passive microphone surface mount for gooseneck microphones

FEATURES

- Stainless steel surface mount
- Push button and LED controlled by third party conference systems
- No power required

- XLR 3 pin connection
- Easy to install
- Maintenance free

GENERAL

Arthur Holm's MicConnect is a static surface mount for XLR microphones with integrated shock mount, push to talk button and microphone status LED. The microphone is very easy to connect and disconnect. A special tool (included with the product) is necessary to remove the microphone. When there is no microphone connected the XLR connector is covered by a lid integrated in the system.

MicConnect is made of stainless steel and standard and customised finishes are also available.
