

# DynamicCableRetract

USB-C motorised cable retraction system

## FEATURES

- Motorised cable retraction solution with USB-C cable
- Minimalistic design
- Designed to be discreet
- Capacitive sensor to deploy and retract the cable

## GENERAL

The patented Arthur Holm DynamicCableRetract, is a compact, elegant and robust motorised retractable cable solution that ejects a 600 mm USB-C cable by a touch of a button in a smooth and silent move.

The system has been designed to blend discreetly with the furniture and to give the user a professional AV solution with a long-life span. The Dynamic retractable cable can be locally controlled or remotely through RS-422 or through the AHlink app that gives you wireless access to the setup menu, basic control, serial number and factory settings, making the installation and service of the DynamicCableRetract easy and straight forward, without physically having to access to the interior of the table.

The AHlink app is available for Android and iOS.
