DynamicReceptionMonitor

HDCP compliant aluminum motorized monitor for desk integration

Highlights

- Motorized adjustable height
- 140° manual rotation
- Stainless steel rotary arm
- Ergonomic

- 24/7 design
- Maintenance free
- Energy saving design, low consumption video controller

General

Arthur Holm DynamicReceptionMonitor is a motorized adjustable reception monitor for a perfect fit. It provides a quick motorized adjustment to match each individual need when working to create a correct and preferable work environment in a front desk.

The professional Arthur Holm DynamicReceptionMonitor incorporates the latest professional technologies to ensure a perfect workplace. It offers a non-obstructive design in which all technical interfaces and cables are internal, so the front desk is free of cables and obstructive components, creating a cleaner work environment.

The DynamicReceptionMonitor has been designed to be integrated in tables or desks. The base of the monitor is installed on the surface and its connectivity is placed below the table, making the installation clean and minimalistic. The elegant monitor housing is made of milled aluminum and it includes an antiglare protection glass with black marking. The stainless steel rotary arm of the monitor offers a motorized adjustable height for a perfect fit.
