Motorized microphone lift system for boundary table top microphones

### Highlights

- Motorized lift for boundary table top microphones
- Compact, space optimising and stylish solution
- Low profile enclosure
- Maintenance free
- Compatible wireless connectivity for setup and control via AHliInk

## General

DynamicTalkB is a motorized microphone lift for boundary microphones and similar, controllable via AHnet protocol or directly on the device using the flush mounted touch control sensor.

The Arthur Holm DynamicTalkB microphone lift is designed to hide boundary microphones when not in use with a smooth, elegant and silent movement.

The microphone lift is capable of providing commands for automatic mute of the microphone (depending on the model and maker of the microphone) when moving and in storage position. The housing is made out of steel and the upper cover plate is made in stainless steel. DynamicTalkB can be remotely controlled and diagnosed through the AHnet protocol (RS-422/RS-485 Full Duplex) and AHlink. DynamicTalkB shall be compatible with ERT-30 and ERT-60. The use of the Arthur Holm's ERT will enable the address configuration of all the units installed in a table by simply pressing a button. The DynamicTalkB is compatible with AHlink Android and iOS app allows access to the setup, diagnose and control menus.
