ARTHUR HOLM

MAKE **YOUR MEETINGS** COUNT

OUR COMPANY

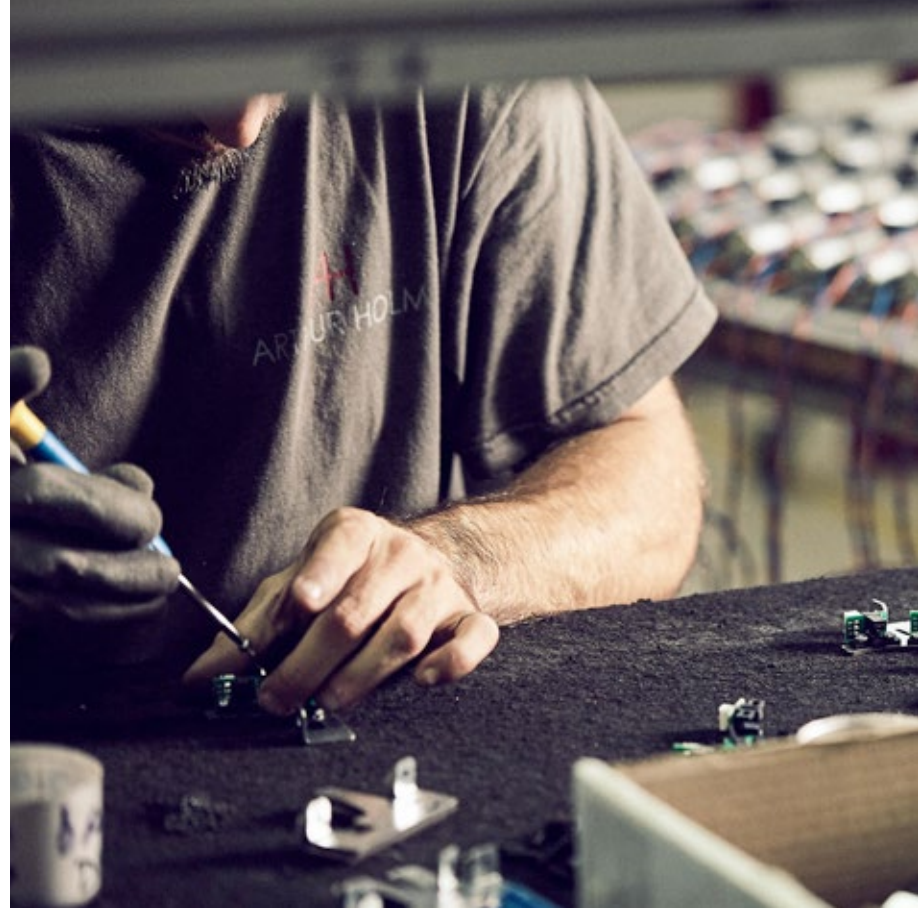

Combining Scandinavian craftsmanship with vibrant Mediterranean creativity, Arthur Holm embodies a fusion of tradition and passion. We firmly believe in the growing significance of meeting spaces, striving to offer unique, inspiring experiences that facilitate decision-making and boost creativity. We focus on creating innovative technology solutions seamlessly integrated into furniture: beautiful, discreet, intuitive, and compatible with third-party devices. Our goal is to inspire and redefine meeting spaces.

CRAFTMANSHIP

Arthur Holm brings together technology, design, and functionality to create inspiring and unique meeting spaces. We are dedicated to designing and manufacturing beautiful, elegant, tailor-made products to assist with decision-making, enhancing participation, and fostering creativity in meeting rooms. Every stage of the manufacturing process, from electronics through mechanisms to quality control, is meticulously executed in our factory. Each product is carefully designed and handcrafted with love.

TEAM EFFORT

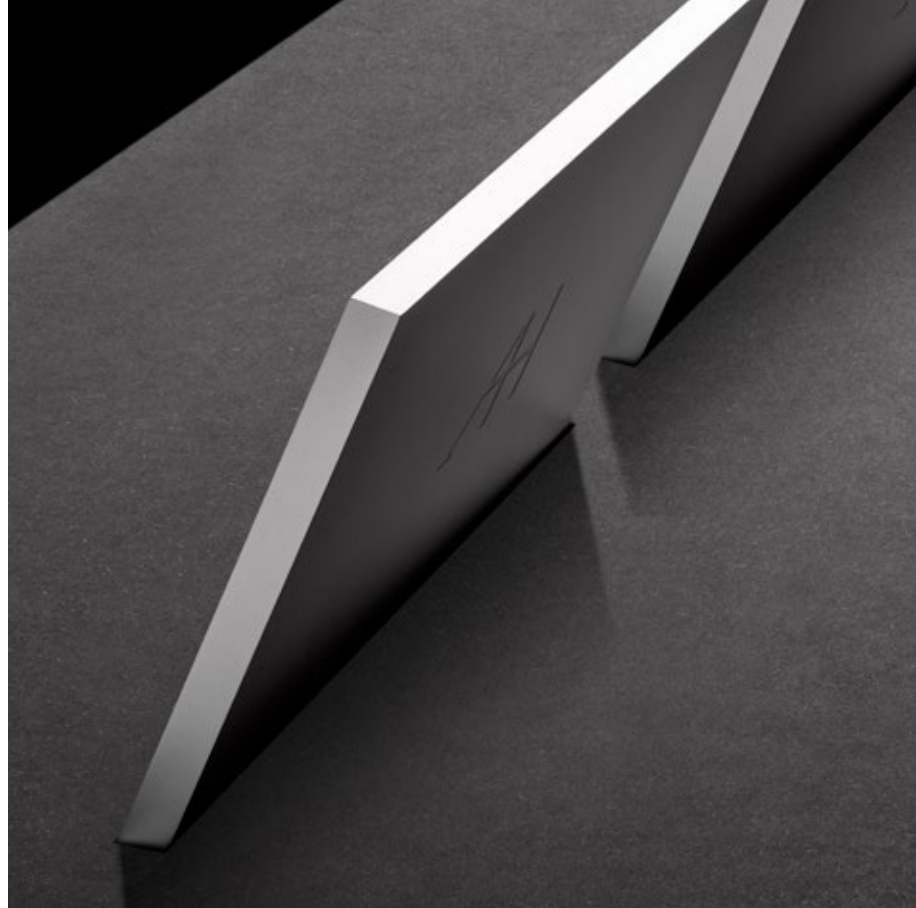

Since its establishment, Arthur Holm has continually invested time and effort in improving its entire team, from designers to all production staff. Our highly skilled workforce, with decades of experience, stands as a cornerstone of inspiration. Within our factory, every member contributes to upholding our high standards throughout the manufacturing process. This persistent effort, year after year, reflects our commitment to excellence, as we firmly believe that the best can and should always be improved.

SUSTAINABLE PRACTICES

Our products are meticulously designed to last, to stand the test of time. For that reason, we only use industrial components known for their long lifespan. With a long manufacturing history, we craft for both the present and the future. Durability and longevity are at the heart of everything we do, prioritizing sustainability in every material, from aluminum to glass and steel. Our electronics emphasize energy efficiency, reducing consumption while providing exceptional diagnostics, configuration, and control features.

CUSTOMIZATION

Our comprehensive product range caters to diverse needs. Should a customer require a unique product, we can personalize it to suit with specific requirements. Our products seamlessly integrate various functionalities and finishes tailored to individual preferences. We specialize in turning sparks of ideas into tangible products, this magical transformation is shaped by our collective effort —engineers, designers, operators, and salespeople. Tirelessly, we pursue the ideal solution. It's the art of pure alchemy we bring to life.
