

DynamicCableRetract

HDMI motorized cable retraction system

Highlights

- Motorized cable retraction solution with HDMI cable
- Up to 900mm cable extension .
- HDMI Male-to-Male cable for versatile connections.
- Minimalistic design
- Silent and reliable motorized mechanism.
- Capacitive touch sensor for smooth cable deployment and retraction.
- Compact design for seamless integration into furniture and AV installations.
- Easy to install with minimal furniture modification.
- Under-table cable container keeps the cable neatly stored when not in use.

General

The DynamicCableRetract is a motorized retractable HDMI cable solution that brings effortless connectivity to meeting rooms, conference tables, and collaborative workspaces.

Touch-Connect-Share: With a simple touch of the capacitive sensor, the cable smoothly and silently extends up to 900mm, providing up to 4K video. Touch the sensor again to retract, keeping your workspace tidy, organized, and cable-free.

Perfect for temporary device connections, the DynamicCableRetract blends convenience, elegance, and professional performance into a compact, self-contained system that simplifies connectivity and enhances every user experience.

- 2 years general warranty

Consultants, architects and engineers specifications

The DynamicCableRetract is a compact motorized HDMI cable retraction system designed for professional AV and collaborative workspaces. The system shall allow installation into a furniture opening with a maximum diameter of Ø48mm and a cover plate of Ø60mm. It shall provide a capacitive sensor to deploy and retract a HDMI cable with a maximum extension of 900mm. The cable shall extend smoothly when needed and retract automatically when not in use, ensuring a tidy, organized, and professional workspace. The self-contained unit shall be designed for quick and straightforward integration into tables, desks, and other furniture, providing reliable connectivity and high-power charging for temporary or shared device use.
